Sample Required Essay

*This is sample for a high school senior demonstrates incorporation of data for Required essay and inclusions for some scholarships as their criteria requires.

“The greatest glory in living lies not in never falling, but in rising every time we fall.”
Nelson Mandela

As I begin to reflect on my high school experience, I realize that many of the accomplishments I am most proud were built on the back of failures unseen. My transcript and awards speak to my accomplishments, but in reflection if I had not fallen a few times and decided to get back up, none of those accolades would be possible.

I am recovering from math phobia. Even if it is not a real phobia according to Webster’s dictionary, it is real to me. I never performed poorly in mathematics, but in elementary school I did well because I was able to plug in numbers. When I got to high school, I was unable to just use formulas to get good grades. Teachers began to ask me the “why” behind the answer and I began to drown. I was taught to figure out answers, and I was good at that task. When I was asked in my pre-calculus class to explain my answers in a deeper way, I became frustrated. What difference did it make why the answer was the answer?

I am the oldest of four siblings and my parents have instilled in all of us the importance of education. The sympathy I looked for at home wasn’t there. They told me to pray, study and communicate with my teacher. So, I did. I went to school and began to ask questions and study harder and slowly the cloud of confusion lifted. That first semester of pre-calculus I earned my first C in a mathematics course ever! I was very proud of this grade because the journey I traveled to earn that grade was truly my own. By the end of the course I had an A-, and that is all that appears on my transcript, but I am more proud of my process than the grade I earned by the end.

I am a proud member of Enon and I am grateful for the opportunities my church has afforded me. The major lesson I learned from all the tournaments I lost, competitions in which I didn’t place first and even the sermons from one Sunday to next are that of resiliency. If Jesus Christ could die so that I could live, then I should live this life to the fullest. There is no way I can quit or speak of what I can’t do with the example of love He provided.

In conclusion, I am proud of what my transcripts and awards say about my character. My transcript doesn’t speak of my future aspirations, dreams and strong will to succeed. I will one day be an educator who will impact the community I came from. Although I know that I will not become a millionaire with this career choice, I will be able to give back a small portion of the hope and dreams that were given to me.
